INTRODUCTION

Waste is part of human life, the type and amount of waste produced increases with improvement in the standard of living and industrial development.

In response to the growing concern about the environment especially regarding waste management, the Indonesian Government has issued some environmental regulation (Government regulation No 18 Year 1999 Jo. No. 85 Year 1999 Regarding Hazardous and Toxic Waste Management a regulation and Enviromental Impact Management Agency [BAPEDAL] degrees concerning hazardous waste management).

The regulation contains of waste list substances which are categorized and hazardous waste generated from specific and non-specific source.

Since 1996, PT. Desa Air Cargo Batam was activated in hazardous waste transportation service and in the year of 2000 had begun expansion in hazardous waste disposal with incinerator facility and joint with PT. Greenindo expand solvent recycle facility in the year of 2002.

Our Costumer :

- # Electronic Industries
- # Oil & Gas Company
- # Shipyard
- # Hospital / Clinic
- # Offshore & Onshore
- # Industrial Estate

Our Service :

- # Waste Transportation
- # Waste Collection Area
- # Waste Stored
- # Waste Incineration
- # Waste Recycle
- # Waste Cleanup
